

Blanket Permission Slip

The band program at Olathe Northwest is an active and participatory activity. There are multiple times throughout the school year that it will be necessary for each student, as a member, to participate in activities and/or performances off site and away from ONW campus. The staff makes every attempt to schedule as many of those activities at the beginning of the academic school year, however, due to the nature of our performances and the fact that we are in high demand in the community, our calendar of events can change from week to week. The ONW Band calendar is posted at www.ravenbands.org

The purpose of this form is to inform you, as parents, about planned activities that are currently scheduled. It is designed so that you may give consent for your student to participate in all extra/co-curricular activities (those currently scheduled and those scheduled in the future), that the staff may deem appropriate for your student to attend based upon their enrollment in class and their participation in the program. Each activity will be supervised by adults. It may be necessary to alter details of each activity, including leave times and/or arrival times, but every effort will be made to retain normal supervision for the safety, security and welfare for all participants. This list is not exhaustive. These are major dates that are scheduled as of this time.
